

Unit Assessment Criteria Scorecard – 2022 Scores

Unit Name: Bridgeton

Total Score: 9

Type of System (Water/Sewer): WW

As required by Session Law 2020-79 (SL 2020-79). The Local Government Commission (LGC) and State Water Infrastructure Authority (Authority) have developed criteria to identify local governments that may be struggling to provide water and/or sewer services. Assessment criteria include parameters required by the statute, infrastructure and organizational issues, and indicators of financial strain. This score card shows the points your unit scored and the data values used to determine those points. The attached Unit Scorecard Explanation provides additional information about each of the parameters that contribute to the score. Units providing both water and sewer service and scoring 9 or more points, or units providing only a single service and scoring 8 or more points are considered at risk of being designated distressed under the new law.
